The Ministry of Education and the Cayman Islands Public Library Service are proud to sponsor the 2017 Summer Reading Challenge. The goal of the programme is to keep children reading throughout the summer and further develop their love of reading. We encourage all parents to take advantage of this important opportunity to encourage your children to read during the holiday.

Message from the Library Director

The Cayman Islands Public Library Service is committed to providing all children with opportunities to strengthen reading fluency, literacy and comprehension skills. We also seek to develop a community of lifelong learners that enjoy reading a wide range of quality literature for pleasure. We are especially excited about this year's reading topic. Reading fairy tales and fables help to stimulate a child's imagination and sense of curiosity as they explore realms of wonder and possibility. We hope you enjoy Summer Reading Challenge 2017!

This year's challenge is the exciting the theme of fairy tales and fables. There are so many fantastic books within these genres, from Brothers Grimm, JRR Tolkien to Aesop to inspire and challenge the minds and imaginations of our young readers, readers can explore the awesome possibilities within myth and legend. Hopefully readers will want to turn their imagination into reality by reaching as high as possible and becoming future conceptual thinkers and enjoy the adventures life give gives them. Fairy tales and fables are important in understanding many concepts including moral right and wrong and problem solving. This summer is an amazing opportunity to wonder through the endless myriad of possibilities through the power of reading!
